

**Supplemental Material S2.** Loadings of original variables (normalized F3–F2 distance at pretreatment, posttraditional, and posttreatment time points) on PCA components. Loadings less than .1 are not displayed.

	<b>Component 1</b>	<b>Component 2</b>	<b>Component 3</b>
Pretreatment	.620		.784
Posttraditional	.672	.499	–.547
Posttreatment	.406	–.866	–.291
