

Welcome back to Boys Town National Research Hospital!

Here is our lab!

Heather

Cece

You will play listening games!

You will wait to hear beeps...

...and then put checkers in.

Listening can be fun!

You will sit at a computer.

You will pick the word you hear.

It can be tricky!

But it is always okay to guess!

You will take breaks!

You will see an ear light.

We will look in your ear.

You will see a squishy ear tip.

The squishy tip will go in your ear.

It feels like a big kiss!

The computer will measure your ear.

The computer makes
funny sounds!

It sounds like robot birds!

You will get another
prize at the end!

\$\$ You will earn more money. \$\$
You worked hard!

Thank you for visiting us!
