

**Supplemental Material S2.** A description of the stimuli presented in each of the three incongruent conditions.

	Prime		Target
	Listening to tone	Watching visual arrows	Listening to tone
A–V+ incongruent	--		 bà
A+V– incongruent	 bá	--	 bà
A+V+ incongruent	 bá		 bà

*Note.* The three incongruent conditions are exemplified using rising arrows and the syllable “ba” with a rising tone (i.e., “bá”) or a falling tone (i.e., “bà”). A = auditory; V = visual; A–V+ = visual only; A+V– = auditory only, A+V+ = both auditory and visual.
