

Supplemental Material S3. Pearson product-moment correlation coefficients among predictor measures for adolescents with normal hearing and with cochlear implants.

Pearson product-moment correlation coefficients among predictor measures for adolescents with normal hearing (56).

<i>Measure</i>	Syn. Comp.	Phon. Aware.	Verb. WM	Spec. Res.	Perc. Org.
Vocabulary	.487**	.305*	.241	-.386**	.181
Syntactic Comprehension		.288*	.471**	-.156	.166
Phonological Awareness			.493**	-.376**	.075
Verbal Working Memory				-.199	-.060
Spectral Resolution					.100

* $p < .05$. ** $p < .01$

Pearson product-moment correlation coefficients among predictor measures for adolescents with cochlear implants (52).

<i>Measure</i>	Syn. Comp.	Phon. Aware.	Verb. WM	Spec. Res.	Perc. Org.
Vocabulary	.559**	.413**	.539**	-.032	-.092
Syntactic Comprehension		.410**	.552**	-.243	-.028
Phonological Awareness			.340*	-.388**	.389**
Verbal Working Memory				-.177	-.026
Spectral Resolution				□	-.444**

* $p < .05$. $p < .01$.
