Note. CELF-5 Sentence Comp. = Clinical Evaluation of Language Fundamentals–Fifth Edition, Sentence Comprehension, and is centered at the sample mean. In this way, the intercept is interpretable as the predicted raw score of a male child in Group B, in the business-as-usual condition of a larger study, with English only at home and an average score on the CELF-5 SC.

* $p < .05$. ** $p < .01$. *** $p < .001$.
