

Supplemental Material S3. Elicitations for ALS sentences dataset.

The table below provides the sentence elicitations used in the sentence reading task for the 340 recording, 38 minute *ALS Sentence Reading* corpus, the dataset used to fine-tune the acoustic model. Similar to the DDK recordings, the speech was collected using the SpeechVitals™ app. Note that some speakers did not recite all five sentences.

Five sentence prompts were provided to speakers for sentence reading task.

A dataset of ALS speakers performing a sentence reading task was used to fine-tune the

	Sentence
1	The supermarket chain shut down because of poor management.
2	Much more money must be donated to make this department succeed.
3	In this famous coffee shop, they serve the best donuts in town.
4	The chairman decided to pave over the shopping center garden.
