

# **Supplemental Material S1.** Checklist for identifying treatment, acquisition, and generalization targets and implementing principles of acquisition and generalization

Blank Version for SLP Use

## **Acquisition and Generalization Principles Checklist**

<b>Treatment</b> (e.g., MIT, SFA, description(s)):	
<b>Expected generalization behavior:</b>	
<b>Outcome measures:</b>	

### **Principles to Facilitate Acquisition**

<b>Y/N</b>	<b><i>Acquisition Principle</i></b>	<b><i>How to Implement</i></b>
	<b>Client-centered clinical decision making</b>	
	<b>Dosage</b>	
	<b>Reinforcement type and schedule</b>	

### **Principles to Facilitate Generalization**

<b>Y/N</b>	<b><i>Generalization Principle</i></b>	<b><i>How to Implement</i></b>
	<b>Include instructional strategies that offer cognitive support</b>	
	<b>Use client-led, flexible training</b>	
	<b>Treat more complex items</b>	
	<b>Train the underlying mechanism</b>	
	<b>Go beyond the single-word level</b>
