

Supplemental Material S8. Relationships between (a) self-reported and physiological (EDA, BVPA) measures of LE; self-reported measures of LE and the proportion of correct responses and (b) the proportion of correct responses and physiological (EDA, BVPA) measures of LE.

(a)

		Estimates	Standard Error	z-value	df	p-value
Self-Reports	EDA	0.18	0.55	0.33		0.74
	BVPA	-0.20	1.23	-0.17		0.87
	Correct Responses	-5.73	1.85	-3.09		0.002

(b)

		Estimates	Standard Error	t-value	df	p-value
Correct Responses	EDA	0.04	0.05	0.87	34	0.39
	BVPA	0.13	0.12	0.27	35	0.79

Note: LE = listening effort, Correct Responses = proportion of correct responses, EDA = electrodermal activity, BVPA = blood volume pulse amplitude.
