Note. Rating was given based on the following question: “Please rate this child’s language skills (grammar, sentence production, and vocabulary use).” Rating scale was 1 to 4, with 1 being *more competent than other children of a similar age* and 4 being *much less competent than other children of a similar age*. Comments were elicited by giving the following prompt: “Please provide us with any information that could help us describe/understand the language skills of this child (grammar, sentence production, and vocabulary use).” CG = congruent case; INCG = incongruent case.
