Supplemental Material S3. Example of informed consent visuals used to ensure comprehension of study procedures for aphasia group.

2

Informed Consent

This is to be used as a supplement to the written and verbal informed consent.

The experimenter will read full informed consent script and receive verbal

This PowerPoint is only to augment the communication for people with aphasia.

This study is being run by (Principal Investigator), who is reachable by phone (insert phone number) or email (insert email).

You may also reach (Project Manager) for questions or concerns by phone (insert phone number) or email (insert email).

We employed a PowerPoint with large visuals, large text, short sentences, bolding for emphasis.

1

This will help us change assessment and treatment of disorders such as (insert area of focus).

We will record your responses to some tests.

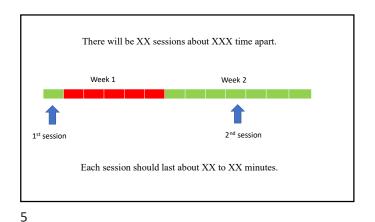

We will record both

audio and video

3

<u>Investigator begins by explaining study:</u> we are evaluating how similar your speech (like storytelling) is across two different sessions. We will also do some other assessments, like attention and naming.

Investigator makes clear how data will be acquired: We will record your responses to some tests. We will record both audio Radio microphone and video

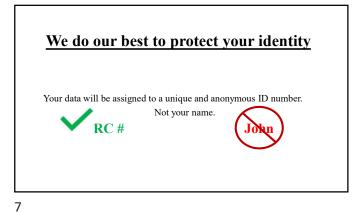

We do our best to keep your data safe. We use only secure systems. We save all videos and information to (insert your HIPAA compliant cloud server/database). We use (insert your HIPAA compliant video conferencing name) to meet for our sessions. Insert Cloud Server Insert Video Conferencing system's and/or Database logo Logo Here here

Investigator describes study commitment: There will be 2 sessions about one week apart. Each session should last between 1 and 2 hours.

Investigator describes where data is kept and how information is kept safe: We will use Zoom (for example) to acquire data. Data is kept on a system called REDCap.

6

8

Your participation is voluntary You may choose to stop participating at any time.

We won't use your name on any data. You will be assigned a special ID instead.

Description of voluntary participation. You may choose to stop participating at any time.
